

FIRE RATED FULL MORTISE ELECTRIC HINGE

24 VAC/DC
POWER SUPPLY

- In compliance with national life - safety and fire protection codes.
- PBB Series EL Electric Hinges are **listed** with **Underwriters Laboratories** for use on **metal fire doors** rated up to and including **3 hours** and **wood composite doors** up to and including **1 1/2 hours**.
- All of PBB EL Series hinges are UL Listed 10B Fire Rated Hardware.
- PBB's 2 wire 20 gauge high amp hinge can be cycled at 8 amps surge for 100-200 m-sec for 15 seconds.
- PBB's 2+4 wire hinge are the first of its kind to offer several advantages to the industry. The 2-20 gauge wires can be used with electric latch retraction devices and the 4-30 gauge wires can be used for control and switches.
- We are the only company to manufacture swing clear electric hinges due to our unique process. The wires are completely concealed.
